FEATURED BOOK

This Preeminent Darkness

My devotion to studying the Lord's prophecies, particularly when it comes to culture, is anchored in my love for releasing the Life of Christ from within. In the pages of this book, you will discover some of the top trending cultural movements that rise against the mind of Jesus. Scripture reveals our Lord's thinking regarding each movement. It is my mission to unfold the doctrines of Christ as these movements rise against Christianity. -PHINNEY
